

GAUSALJA THARMARAJAH

BUSINESS DEVELOPMENT – TECH SALES – LEGAL TECH

Paris, France - 0619343733 – gau.tharma@gmail.com

French (native) – English (C2) – Tamil (native) - German (B1)

I am a Law graduate with an entrepreneurial and technology-oriented background seeking to build a career in B2B SaaS, Artificial Intelligence and LegalTech sales ! I have experience developing a digital product from idea to commercial launch. I also have customer-facing experience in an international retail environment. I have strong communication skills with a particular interest in AI, App development and business.

Experience

Founder & Developer – VALUZ – Independent Digital Product – Paris, France, Present

- Independently developed a digital publishing platform designed to connect authors and publishers
- Identified an opportunity in France and conducted market research
- Managed the development from the concept of the Application through Dart and VS Code - Paid account model and SIRET verification system
- Preparing for commercial launch

Sales Associate – Armani Outler, La vallée village – Serris, France, summer 2025 and summer 2026

- Advised international customers in French and in English from initial contact to purchase
- Worked towards daily sales objectives in a demanding retail environment
- Used CRM and point-of-sales tools to manage customer interactions and transactions
- Developed strong communication, active listening and relationship-building skills
- Managed customer transactions and provided customer assistance
- Worked with cash register and operational systems

Additional Customer & Operation Experience – FNAC, Autobacs, Pharmacie

- Customer service, stock management and administrative operation

Entrepreneurship and Business project

National Student Entrepreneur – Digital Platform Project – 2023

- Created a platform connecting web developers and UX designers after identifying an opportunity in the freelance market
- Conducted market research and developed the concept independently using WordPress and python
- Opportunity identification, market analysis and project ownership

Women@Dior & UNESCO – Business Project – 2021 to 2022

- Developed a business model for a perfume concept inspired by the scents of India

Independent author – Since 2023

- Created a 61 page activity workbook in Tamil for people with Alzheimer's disease - Researched the disease and structured and produced the content
- Wrote a comic book about having a double culture (French/Tamil)
